Price Quotes (Option 2)

This option covers cost of setting up the website and monthly management of the Website respectively.

Item Description	Amount in (Naira)
Website Hosting: (5GB to 8GB Storage) Hosting and SSL Security Certificate Backup	90,000
Slider Modules	23,400
Social Media Integration	25,000
Search Engine Optimization Plugin (SEO)	35,000
Donation & Contribution Gateway Integration	25,000
Official Email Configuration	Free
Initial Setup Cost	**₦198,400**
Monthly Management and Maintenance Cost	**₦15,500/Month**

Cost Summary

Site Hosting: The website hosting cost listed above covers the purchase of Hosting Plan, Domain name, Security Certificate and Real time Backup respectively. This is required to make the website public, protect it from cyber attacks and ensuring safety through backup. All these services are provided by both local (Nigeria) and foreign companies.

Modules and Plugins: These items are sold at premium prices and are required to extend the functionality and styling of the website respectively.

Theming and Layout: The website would be built using a content management system (CMS) and evidently requires a theme based on the CMS used. Premium 2019 best themes would be used for this purpose. The internal pages would consist of well-suited layouts as well.

In Summary

The Cost provided above are provided by our team for your budgetary purposes. We are open for further discussions and clarities needed.

Thanks!

Godfrey Jonas
